MARCELLE SILVA

Full Stack Developer | U X / U I

PROFESSIONAL SUMMARY

I am a Fullstack developer in training, with a focus on front-end and skills in HTML, CSS, JavaScript, Tailwind CSS, Vue.js, Angular, and basic React.
I am interested in UX/UI and in developing purposeful and impactful projects.
I have backend knowledge in Java, PHP, and Python.
I learn quickly, work well in teams, and am passionate about creating accessible and functional digital experiences.

HTML, CSS, and JavaScript
Vue.js
React
Java
PHP
Python
Git/GitHub
API Development and CRUD Operations
Familiarity with MongoDB database
Basic knowledge of security and deployment

LANGUAGES

Portuguese (native)
English

EXPERIENCE

2024 - Eu ProgrAmo: My First API

I developed an API using Node.js and Express, implementing routes and HTTP methods. I enhanced the security and deployed the application, ensuring its online accessibility.

2025 - Java Development - Instituto Matera

I developed applications using Java, applying object-oriented concepts, loops, and conditionals. I created practical projects focused on logic and best practices, strengthening my foundation in back-end programming.

EDUCATION

Estácio de Sá University
Internet Systems - In progress
